Please Read the Following Testimonial as to its Merits: SALT LAKE CITY, February 6th, 1886

GENTLEMEN—It gives me pleasure to comment on the superior work we are now doing with the committee Alabaster rock called Alabastine. The effects produced by its are very brilliant is unining, such as Calciuming, Freecoing, etc. And I do conscientiously recommend the article as being one of the best improvements ever effered to the or puolic.
I can always afford to guarantee my work done with this material, so that I am fully feed with it, and would recommand it to all follow workmen.

Respectfully,
W. C. MORRIS,
The Painter.

Lee's Gulch and Bradford.

Peter Morisan has returned from a week's stay on Lee's Gulch. He toforms us that the mines of that section are looking better than ever before and will yield handsomely this year. Two shifts are driving a tunnel to tap the Constock. It is expected that when completed, it will be 250 feet long. The vein will be reached in 125 or 130 feet more, which work will require about thirty or forty days. Ore is shirofing from the Hundrog, which is fooking first-rate.

Brailord is a lively little town and growing right along. The Munite Moore and Queen of the Hills are improving in size and richness every day, as is also the Overland,—Inter Idaho. forms us that the mines of that section
